

# COMPANY PROFILE

Reg No: 2021/999675/01

Powering Progress, Safely and Sustainably

# About Our Company

Leago Power is a professional electrical and energy solutions company based in Middelburg, Mpumalanga. We specialise in delivering reliable, compliant, and energy-efficient electrical services to industrial, commercial, and domestic clients.

Our company is driven by a commitment to quality workmanship, safety compliance, and customer satisfaction. Whether it is a new electrical installation, solar system setup, backup power solution, or certification service, Leago Power ensures every project meets South African standards and industry best practices.

# Company Overview

At Leago Power, we pride ourselves on offering practical solutions that improve efficiency, reduce downtime, and support sustainable energy use.

Our team of highly skilled professionals is committed to meeting the unique needs of each client while upholding the highest standards of craftsmanship and customer service.

## Our Vision

To be a trusted leader in electrical and renewable energy solutions, empowering communities and businesses through safe, efficient, and sustainable power systems.

## Our Mission

---

To provide high-quality electrical and energy services that are compliant, reliable, and cost-effective while maintaining the highest standards of safety and professionalism.

# Our Services

## Electrical Contracting Services

### Electrical Contractor Services

Leago Power provides comprehensive electrical contracting services for:

Industrial Installations

- Factory and plant electrical installations
- Machinery and equipment wiring
- Maintenance and fault-finding
- Power distribution systems

### Commercial Installations

- Offices, retail stores, and business premises
- Lighting and power installations
- Electrical upgrades and maintenance
- Compliance inspections

### Domestic Installations

- New home wiring
- Electrical renovations and repairs
- Lighting, plugs, and DB board installations
- Fault detection and repairs

*All electrical work is completed in accordance with South African regulations and safety standards.*

# Solar System Solutions

## Solar System Installation, Repair & Maintenance

Leago Power offers complete solar energy solutions designed to reduce electricity costs and provide reliable alternative power.

### Our Solar Services Include:

- Solar system design and installation
- Residential and commercial solar solutions
- Solar panel repairs and system upgrades
- Preventative maintenance and inspections
- Fault-finding and performance optimisation

We help clients transition to clean, renewable energy while ensuring maximum efficiency and long-term reliability.

# Backup Power & UPS Systems

## Backup System & UPS Installation

Power interruptions can be costly. Leago Power provides dependable backup power solutions to ensure uninterrupted operations.

### **Our Backup Solutions Include:**

- Backup power system installations
- UPS (Uninterruptible Power Supply) systems
- Battery backup solutions
- System testing and maintenance
- Load assessment and system sizing

Our solutions are ideal for homes, offices, and industrial environments where power continuity is critical.

# Compliance & Certification Services

## **Certificate of Compliance (COC)**

Leago Power issues Electrical Certificates of Compliance in line with South African legal requirements.

### **COC Services Include:**

- Electrical inspections
- Compliance assessments
- Rectification of non-compliant installations
- COC issuance for properties, sales, and rentals

## **Energy Performance Certificate (EPC)**

We assist clients with Energy Performance Certificates to measure and improve energy efficiency.

### **EPC Services Include:**

- Energy assessments
- Compliance with energy efficiency regulations
- Support for commercial and regulated properties
